NITESH PRABHAKAR

Senior QA Engineer | 7+ Years in Software Quality Assurance

🔗 linkedin.com/in/nitesh-prabhakar-92041a24a | ✉️ niteshsinha055@gmail.com | 📍 New Delhi, India

PROFESSIONAL SUMMARY

Results-driven Senior QA Engineer with 7+ years of hands-on experience delivering quality across web, mobile, API, and performance testing. Proven track record in manual and automation testing for large-scale legal-tech, OTT, and fin-tech platforms. Skilled in identifying security vulnerabilities, validating complex end-to-end workflows, and driving defect resolution in Agile environments. Over the past year, has expanded into automation using Playwright (Java/JavaScript) and Appium for mobile testing. Adept at cross-functional collaboration, test documentation, and mentoring junior QA engineers.

TECHNICAL SKILLS

Automation:	Playwright (Java, JavaScript), Appium (Android & iOS), Selenium
API Testing:	Postman, Swagger
Performance:	Apache JMeter
Mobile Testing:	iOS, Android, Android TV, iOS TV, Roku TV — using Appium & manual
Bug Tracking:	JIRA, Linear, Redmine, Bitbucket
Test Mgmt:	Test case design, RTM, STLC, defect lifecycle, regression suites
Database:	SQL
Languages:	Java, JavaScript
Methodologies:	Agile / Scrum, SDLC, STLC
OS / Platforms:	Windows, Web, iOS, Android, Smart TV (Android TV, iOS TV, Roku)

CORE COMPETENCIES

- Manual & Functional Testing
- API Testing (Postman/Swagger)
- Regression & Smoke Testing
- Mobile Automation (Appium)
- Performance Testing (JMeter)
- Defect Lifecycle Management
- Web Automation (Playwright)
- Security & Vulnerability Testing
- Agile / Scrum Collaboration

PROFESSIONAL EXPERIENCE

QA Engineer | GRK Info Service Pvt. Ltd., New Delhi *Jul 2021 – Present*

- Lead QA activities for multiple concurrent product releases across legal-tech, fintech, and SaaS platforms in an Agile environment.
- Designed and maintained comprehensive test suites covering functional, regression, smoke, and sanity testing for web and mobile applications.
- Executed mobile application testing using Appium for Android and iOS platforms, automating key end-to-end flows for the LAWCLERK Remote Associate registration and profile builder.
- Built and maintained Playwright automation scripts in Java and JavaScript, reducing manual regression effort by enabling repeatable test execution.
- Conducted security-focused testing — identified critical vulnerabilities including JWT token exposure in DOM and XSS input acceptance on production-bound QA builds.

- Performed API testing using Postman and Swagger, validating request/response payloads, authentication flows, and error handling across REST endpoints.
- Carried out performance testing using JMeter to assess system behavior under load, identifying bottlenecks before releases.
- Authored and maintained test documentation including test plans, RTMs, and detailed bug reports in Linear and JIRA.
- Raised 50+ detailed bug reports with clear reproduction steps, severity classifications, and developer-ready evidence (screenshots, videos, console logs).
- Mentored junior QA engineers and conducted internal knowledge-sharing sessions on testing tools and best practices.

QA Engineer | A2Star Technologies / Mobiotics Solutions Pvt. Ltd., Bangalore *Nov 2020 – Jun 2021*

- Performed functional, regression, and integration testing on OTT media streaming platforms (DocuBay, vLive) across web, mobile, and smart TV platforms.
- Validated multi-bitrate video streaming quality on Android TV, iOS TV, and Roku TV devices.
- Executed API and performance-related testing for backend services supporting live and on-demand content delivery.
- Collaborated with developers and product managers to triage and prioritize defects for sprint releases.

Software Test Engineer | A2Star Technologies / Client: BSG Technology, Mumbai *Jan 2018 – Oct 2020*

- Executed manual testing, SQL-based data validation, API checks, and performance testing on banking and e-commerce applications.
- Prepared and maintained test cases, test plans, and defect reports using Redmine and JIRA.
- Participated in requirement analysis and test planning sessions, translating business requirements into test scenarios.
- Contributed to full STLC including test strategy definition, execution, defect tracking, and sign-off reporting.

Operations Representative | Concentrix Daksh Services India Pvt. Ltd. *Jan 2017 – Dec 2017*

- Handled customer operations workflows; developed strong communication, escalation handling, and process adherence skills.

KEY PROJECTS

LAWCLERK — *Legal Technology Platform* | *GRK Info Service*

A legal marketplace connecting law firms with freelance attorneys and Remote Associates for project-based legal work including document drafting, review, motions, and discovery.

- Led end-to-end QA for the Remote Associate (RA) Registration & Onboarding module, covering signup, OTP verification, identity verification, profile builder, and Salesforce sync flows.
- Executed mobile app testing using Appium on Android and iOS devices, automating RA registration and profile completion workflows to validate cross-platform consistency.
- Identified and reported 50+ bugs across functional, UI, security, backend, and PRD compliance categories — including 2 Urgent security issues (JWT exposure in DOM, XSS input accepted).
- Validated Salesforce data sync for attorney acceptance, BAR license progress, payment status, and dual account scenarios.
- Performed security testing — discovered NoSQL injection and Unicode homoglyph vulnerabilities causing 500 errors on the registration endpoint.
- Executed token and session management validation — identified expired token reuse and session fixation risks.
- Collaborated with developers on defect triage and PRD compliance gaps, ensuring implementation matched specification across all 3 gating checkpoints.

DocuBay — *OTT Media Platform* | *Mobiotics Solutions*

- Performed functional, regression, and release validation testing across web and mobile platforms.
- Validated content delivery, user subscription flows, and playback quality across multiple devices.
- Supported production releases with sign-off testing and smoke validation.

vLive — *Multi-Bitrate OTT Streaming Platform*

- Tested multi-bitrate video streaming across web, mobile, tablet, Android TV, iOS TV, and Roku TV platforms.
- Executed functional, integration, regression, and API/performance-related test activities.

Defect Pace / Sales Propeller — *Banking & E-Commerce Applications*

- Conducted manual testing, SQL data validation, API checks, and JMeter performance testing.
- Identified and documented defects across transaction flows, form validations, and database integrity checks.

CERTIFICATIONS

- **SelectorsHub Certification Program** — SelectorsHub, 2026
- **Page Load Timer Certification** — SelectorsHub, 2026
- **Effective Leadership** — HP LIFE, 2022
- **Business Communications** — HP LIFE, 2022
- **Business Email** — HP LIFE, 2022
- **Effective Presentations** — HP LIFE, 2022

ACHIEVEMENTS

- Identified 2 critical security vulnerabilities (JWT token exposure in DOM + XSS input acceptance) on a production-bound legal-tech platform, preventing potential session hijacking risks before go-live.
- Raised 50+ detailed bug reports for the LAWCLERK Remote Associate onboarding module, contributing to significantly improved release quality.
- Consistently recognized for on-time test completion and high defect detection rates across multiple product releases.
- Conducted internal knowledge-sharing and training sessions for junior QA engineers on tools including Playwright, Postman, and Appium.

EDUCATION

Bachelor of Computer Application (BCA)- **William Carey University,Shillong.**
10+2 — **Central Public School, Samastipur**
10th — **Kendriya Vidyalaya NTPC Farakka**
